

Production of valuable products from renewable resources

(Preliminary programme subject to changes)

Tuesday 4th October

9:00-10:30 ***Session 1: Publications workshop. Platinum sponsor: Elsevier***

The Workshop is designed to help early career biotechnologists get their results published in international journals. Participants will be invited to submit manuscripts for a thematic issue of the **EFB Journal New Biotechnology** on the development of **Valuable Products from Renewable Resources**.

Introduction to EFB Journal New Biotechnology: impact factor 6.49.

Dan Cheng, Elsevier. Publisher of "New Biotechnology".

Why papers are rejected: how to increase the chance of acceptance.

Mike Taussig, Chief Editor. "New biotechnology".

How to work with editors and reviewers.

Steve Euston, Chief Editor. "Bioeconomy Journal".

Elsevier –Publications ethics.

Call for papers for a thematic issue "Valuable products from renewable resources".

Questions to the Editors and Publisher.

10:30-11:00 *Break*

11:00--13:00 ***Session 2: "Harvesting renewable marine resources" organised by the EFB Environmental Biotechnology Division***

Session Chair:

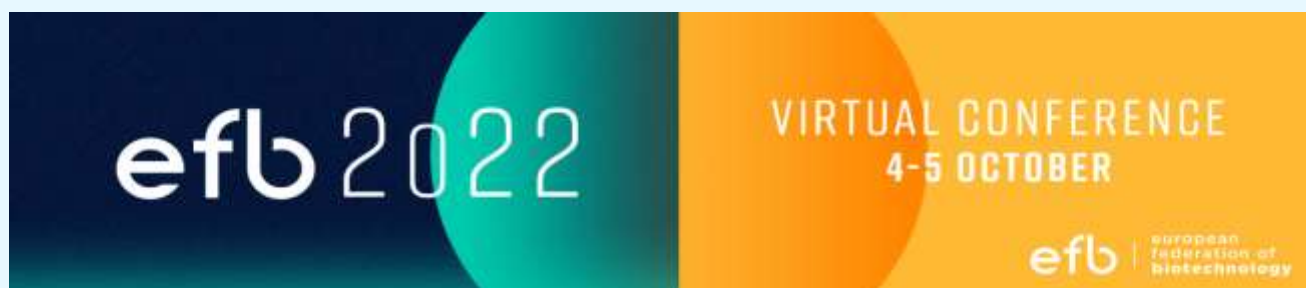

Marlen Vasquez, Cyprus University of Technology. CY

Introduction.

Keynote lecture: TBA.

Invited talk: **Olivier Thomas**, NUI Galway

Marine biodiscovery: pharmacological and medical applications

Flash poster presentations

Invited talk: Fernando Reyes, Fundación Medina

Isolation of novel antibiotics and other natural compounds

Keynote lecture: Kamalesh Prasad, Senior Principal Scientist, CSIR-Central Salt & Marine Chemicals Research Institute, India.

Efficient processing of seaweeds for products

Keynote lecture: TBA.

Q + A; invitation to establish confidential biopartnering meetings.

13:00-14:00 *Break*

14:00-16:00

Session 3: " Valuable Products from Renewable Resources" organised by the Bioengineering and Bioprocessing Division

Introduction

Novozymes lecture

Carbon capture

Presentations by SMEs

Flash poster presentations

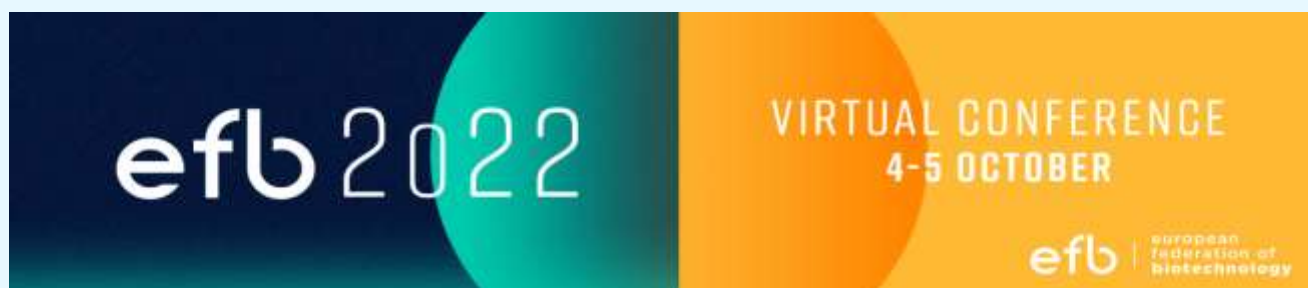

Invited lecture

Flash poster presentations

Exploitation of industrial wastes for biopolymer and bulk chemical production.

Keynote lecture: Maria Reis, FCT, New University of Lisbon, PT.

Q + A; invitation to establish confidential biopartnering meetings.

Wednesday 5th of October

9:00-11:00

Session 4

Introduction

Keynote lecture

Presentations by SMEs

Flash poster presentations

Invited lecture

Keynote lecture: Christoph Wittmann, Universität des Saarlandes

Q + A; invitation to establish confidential biopartnering meetings.

11:00-14:00

Break

14:00-16:00

Session 5: "Valuable Products from Renewable Resources" organised by the EFB Executive Board in collaboration with the Biocatalysis Division

Introduction

Keynote lecture: TBA

Organic waste conversion into fully biodissolvable and non-toxic polymeric granulate.

Marina Cvijanovic, Eco Bio Croatia

Flash poster presentations

Invited lecture

Bioblue Natural Absorber – The most efficient oil absorber in the world

Guilhermo Queiroz, Biosolvit, BR

Keynote lecture: TBA

Q + A; invitation to establish confidential biopartnering meetings
